

# Register your Numbers; Certify Your Trust

Protect your identity from being improperly tagged as Spam or Scam by registering your numbers and certifying your status as a Verified Identity™.

## CONNECT MORE

Register phone numbers across top analytics, wireless carriers, and app providers with our Verified Identity™ solution which identifies your legal ownership of the numbers and prevents carrier-level default call blocking and labeling.

## PROTECT YOUR BRAND

Join the trust ecosystem and certify your Verified Identity™ status to establish trust in your calls and remain compliant with the requirements of call authentication with STIR/SHAKEN.

Verifying your identity is the foundation for creating long-lasting successful number and brand reputation.

## MONITOR & REMEDIATE IMPROPER LABELING

 Ongoing visibility via health check and risk rating reports

 Edit, add, or remove phone numbers and campaigns via our number registration

 Around the clock support and remediation for phone numbers that are labeled with warning labels like Scam or Fraud

## ONE SOURCE FOR ONGOING VISIBILITY & CONTROL

Numeracle's Certification and Registration solution extends across the top carriers in partnership with their analytics providers, plus top call screening apps, like YouMail.

Our aggregated view of call labeling data across the ecosystem gives you visibility and control to improve the accuracy of your number labeling and adjust your dialing strategies to achieve higher contact rates.
